Milking Machine Parts

FulFlo Claw Bowls

All FulFlo bowls are available with or without shutoff. The standard configuration is with 35° milk inlet and 3/4" milk outlet. Inlets on the

standard configuration style claw bowl extend from the bowl at a 45° angle to a line from the cows head to tail.

Order #: MZ12010 - Standard Bowl
MZ12110 - Standard Bowl with Shutoff

MZ12410 - MLX Bowl
MZ12510 - MLX Bowl with Shutoff

W 12110 - Standard Bowl drilled for Shutoff
W 12510 - MLX Bowl drilled for Shutoff

FulFlo Parallel Parlor (PP) Claw Bowls

All FulFlo bowls are available with or without shutoff. The standard configuration is with 125° milk inlets and 3/4" milk outlet. Inlets on the parallel style claw bowl extend from the bowl parallel to the line between the cow's head and tail.

The narrower profile of the parallel style bowl is made to accommodate unit attachment through the cow's rear legs.

Order #: MZ12210 - Standard PP Bowl
