Milker Claws

FULFLO CLAW

Designed to eliminate flooding, vacuum instability and slippage. Lightweight gray polysulphone for all around visibility. Large 3/4" milk outlet ensures rapid clearance of milk. Comes complete with Flow Responsive Pulsation. Milk Inlets available in both standard configuration and Parallel Parlor (between hind legs) styles.

Optional Automatic Shut-Off Valve Available

For unit kit, see page 5

KLEEN FLO CLAW

The ultimate in durability with a stainless steel top and radel base. The base is designed for either 5/8" or 3/4" hose to allow for ultra high flow rates while maintaining stable claw vacuum. Pulsation manifold is configured SIDE-TO-SIDE alternating pulsation. Available with or without Shut-Off Valve.

For unit kit, see page 5

For replacement parts, see page 13

Order #: 13304 Claw less Shut-Off Valve
14326 Claw with Shut-Off Valve

Note: Does not include pulsation
